Subject: Additional assembly and test sites for MACOM products.

Dear Valued Customer,

MACOM Technology Solutions has a goal of providing redundant manufacturing capability for increased surge capacity as well as an uninterrupted supply chain. In alignment with this goal, we are pleased to announce two additional manufacturing and test sites for the parts listed in the next page.

In addition to our current manufacturing sites, we will begin manufacturing this part at our long-standing Contract Manufacturer, Year 2000, in Ho Chi Minh City, Vietnam and Hana Semiconductor Co. Ltd, in Ayutthaya, Thailand. Year 2000 and Hana are both valued, high-quality manufacturing partner for many MACOM products.

All materials, specifications, and standards remain unchanged. This change will not affect form, fit, function or reliability.

In accordance with MACOM Technology Solutions' customer notification policy, you are receiving this notice because you have purchased one or more of the products listed in the previous two-year period. This PCN is designed to provide advance notice that, in the future, products you are purchasing may be assembled and tested at our existing sites in Lowell MA or Philippines, or at our new contract manufacturing sites in Vietnam or Thailand.

Please contact your local sales representative if you have any specific questions.

Sincerely,

Jeff Maeda
Senior Product Line Manager
