ATTN: Quality/Purchasing Manager

Subject: Additional manufacturing location & cathode color change

PCN #: PCN-01588

Dear Valued Customer,

The goal of MACOM Technology Solutions is to continually deliver high quality products and services that meet our customers' needs. We strive to offer products that are industry leading in terms of performance, delivery, and value.

In addition to our current manufacturing site, MACOM will commence manufacturing these parts at our long-standing contract manufacturing partner located in Ayutthaya, Thailand. This subcontractor has been a valued partner manufacturing MACOM products for over 20 years. The cathode branding will be changing from the existing green color to a more traditional black color. There will be a cutover period where we will be producing and shipping both colors.

You are receiving this notice because you have purchased one or more of these products in the past two years.
