Subject: End of Life Notification for R573.3xxxxxx and R574.3xxxxxx Part Numbers

Dear Customer,

With an objective of rationalizing our series and parts reduction in our stock, we have made the decision to stop manufacturing certain products that have reached the end of their life cycle. As a result, Radiall is announcing that **R573.3xxxxxx** and **R574.3xxxxxx part numbers (SPnT fitted with SMA up to 3 GHz)** will become obsolete **on March 28th, 2022**.

In lieu of this obsolescence, we have an equivalent in our catalog: the **R573.4xxxxxx** for **R573.3xxxxxx** and the **R574.4xxxxxx** for **R574.3xxxxxx**, which are fitted with SMA interface and operating up to 18GHz. They are already available. However, the **R574.4xxxxxx** part numbers are also about to be replaced at the same date by new ones which are the **R574.Gxxxxxx (SMA up to 18GHz with square flange)**.

Should you have any concerns regarding high demand for any of these part numbers in the future, you can still order **R573.3xxxxxx** and **R574.3xxxxxx part numbers** to cover your needs until **December 15th, 2021**. Nevertheless, we advise you to qualify and replace them with our **R573.4xxxxxx** and **R574.4xxxxxx** part numbers and in the best case, directly with the **R574.Gxxxxxx**.

Do not hesitate to contact your local sales representative or authorized distributors if you have any questions about this obsolescence.

Sincerely,

Marina OJEDA
Product manager
