Subject: End of Life Notification for R574.4xxxxxx Part Numbers (3 to 6 positions)

Dear Customer,

With an objective of rationalizing our series and parts reduction in our stock, we have decided to stop manufacturing certain products that have reached the end of their life cycle. As a result, RADIALL is announcing that **R5744xxxxxx part numbers (SPnT fitted with SMA up to 18 GHz, 3 to 6 positions)** will become obsolete on **March 28th, 2022**.

In lieu of this obsolescence **R5744xxxxxx** is going to be replaced by **R574Gxxxxxx** which is also fitted with SMA connectors, operating up 18GHz but has a square flange instead of a circular one. The **R574Gxxxxxx** part numbers are already available.

Should you have any concerns regarding high demand for **R5744xxxxxx** part numbers in the future, you can still order them to cover your needs until **December 15th, 2021**. Nevertheless, we highly recommend you to qualify and replace them with our new **R574Gxxxxxx**.

Do not hesitate to contact your local sales representative or authorized distributors if you have any questions about this obsolescence.

Sincerely,

Marina OJEDA
Product manager
