

Type PF 55 °C Photoflash, High-Energy, Long Life, 500 V, Aluminum

High Energy, Long-Life Screw-Terminals Case Style

Type PF can withstand more than 100,000 full discharges in typical photoflash applications, and Type PF also delivers the higher energy density possible with a rated voltage of 500 V and higher capacitance values in screw-terminal style cans. Type PF is right for the highest flash-energy applications.

Highlights

- 100,000 flash capability
- 1 joule per cc energy density
