## Richardson RFPD Announces TriQuint GaN Tech Hub

### Microsite features latest news, product releases, online shopping, technical insight and giveaways

**August 27, 2012 – LaFox, Illinois:** Richardson RFPD, Inc. today announced the launch of the [TriQuint GaN Tech Hub](#), a micro-website featuring the latest news on gallium nitride (GaN) innovations and product releases from TriQuint Semiconductor, Inc. (TriQuint).

The Tech Hub is a collaborative effort by the two companies, creating a one-stop-shop and resource for TriQuint GaN products. In addition to product information, including datasheets and online purchasing options, the site offers visitors the opportunity to read and respond to comments from TriQuint and Richardson RFPD, ask questions, and communicate with each other about GaN product design challenges.

“Demand for GaN technology is growing worldwide, and TriQuint is a leader in GaN product innovation from DC to 18 GHz, including discrete transistors, amplifiers and switches,” said David Silvius, Director, Strategic Marketing, Richardson RFPD. “The Tech Hub offers engineers a single location for everything related to TriQuint GaN, including the ability to take advantage of Richardson RFPD’s design support services.”

Additional Tech Hub features include the option to sign-up for email product updates, as well as contests for tech gadget giveaways, links to technical presentation videos, and other resources like white papers and technical articles.

To learn more, visit the TriQuint GaN Tech Hub at [www.richardsonrfpd.com/TriQuint-GaN](http://www.richardsonrfpd.com/TriQuint-GaN).

### About Richardson RFPD, Inc.

Richardson RFPD, Inc., an Arrow Electronics company, is a global leader in the RF and wireless communications, power conversion and renewable energy markets. Relationships with the industry’s top component suppliers enable Richardson RFPD to meet the total engineering needs of each customer. Whether it’s designing components or engineering complete solutions, Richardson RFPD’s worldwide design centers and technical sales team provide support for all aspects of customers’ go-to-market strategy, from prototype to production.
