TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description

Piezo sensors assembled in TE Sensors China with non-China Country of Origin.

Description of Changes

- 1) Shipping label: "Made in China" removed
 - 2) Part marking: "Made in China" removed
- Please refer to the List of Parts tab for details.

Reason for Changes

It has been determined that TE Sensors produces Piezo Sensor products today with a Country of Origin (COO) set as China while per US regulations, the COO should be based not on where the Piezo sensor is assembled (China) but on the source of the Piezo sensing element. Upon this consideration, TE Sensors made the decision to remove the "Made in China" marking on product itself and/ or the packaging labels.

Products requiring an update of the shipping label or the product marking itself have been identified and can be found in the attached list.

TE Sensors is in the process of modifying the product marking accordingly. For shipments destined to the United States, TE Sensors is also in the process of modifying the shipping label and invoice. Please refer to the list of products to identify if only the shipping label will be affected or both the shipping label and the product marking.

PCN Approval Deadline: **January 9, 2026**

First Date To Ship (Substitute Parts Only): **February 1, 2026**

Part Number(s) being Obsolete:

Part Number	Description			**Substitute Part Number	Substitute Description	Comments
N/A						

**Contact your local FAE for product substitution in a different package footprint.
