Subject: Product and Product Packaging Marking Change Notification

Dear Valued Customer,

This notification is to inform you that certain markings will be removed from certain Measurement Specialties, Inc. products (the affected part number list is annexed to this notification). Specifically, the “made in China” marking will no longer appear on the product and/or the product packaging and/or the product documentation (including but not limited to accompanying invoices). For shipments destined to the United States, this change is in accordance with applicable U.S. regulations.

This change will become effective as of February 1, 2026, after which time you may receive mixed shipments with or without the noted markings.

Thank you for your continued business. We look forward to supporting your future Sensors requirements.

Sincerely,

Jennie Capwell

Jennie Capwell, Global Director TES Customer Care
