FEATURES DESCRIPTION PACKAGING ORDER INFO SIMULATE

FEATURES

- **LT1076 Evaluation Kit**
- **Disclaimer:** Linear Technology cannot assume responsibility for use of any circuitry other than circuitry entirely embodied in a Linear Technology product. No circuit patent licenses are implied. Linear Technology reserves the right to change the circuitry and specifications without notice at any time.

DESCRIPTION

ORDER INFO

- Part numbers ending in PBF are [lead free](#). Please contact LTC marketing for information on lead based finish parts.
- Part numbers containing TR or TRM are shipped [in tape and reel or 500 unit mini tape and reel](#) respectively
- Please refer to our [general ordering information](#) or the product datasheet for more details

Evaluation Kits

Part Number	Description	Price
DC014A	LT1076CT MINIATURE 1.5A STEP-DOWN REGULATOR	\$75.00

SIMULATE

To simulate selected Linear Technology products, please download [LTSpice / SwitcherCAD III](#). This powerful schematic capture and simulation tool includes macro models for 80% of Linear Technology's switching regulators, over 200 op amp models, as well as resistors, transistors and MOSFET models.

For other simulation tools, visit our [Design Simulation and Device Models](#) page.
