Part Number: AC164378 - PM3 Socket Module 80QFP (12x12)mm (PIC18F8xJ94)

This MPLAB PM3 Socket Module supports 80L QFP (12x12)mm -PT package code devices. It was designed to support the PIC18F8xJ94 device family of Microchip microcontrollers by using MPLAB PM3 production programmer (DV007004). Please always refer to the (DTS) Development Tool Selector www.microchip.com/dtsapp to verify the programmer and socket module selection for your specific device family and package.
