Share

PICtail™ Plus Expansion Board is an accessory that enables interfacing of vertical PICtail™ Plus Daughter Cards to Explorer 16/32 development board. The expansion board supporting vertical PICtail™ Plus connectors helps in attaching various Daughter Cards for additional functionality. The expansion board supports the New Explorer 16/32 board as well as the Classic Explorer 16 board.

The expansion board also features a Prototyping area and two MikroElektronika mikroBUS™ interfaces. mikroBUS™ interface facilitates the addition of Click™ boards to various application prototypes using the classic Explorer 16 and Explorer 16/32 development board.

Features

Package Contents

Related Tools

- Vertical PICtail™ Plus connector
 - Offers backward compatibility with existing PICtail™ Plus Daughter cards on Explorer 16/32 Development Board
- 2x MikroElektronika mikroBUS™ interfaces
 - Enables existing Classic Explorer 16 users to utilize Click™ boards
